#	Title	Author(s)	Year	Source	Tags / one-liner
1	Hedging the Treasury Lock	Pucci, M.	2019	ssrn:3386521	<code>tlock</code> , <code>repo</code> , <code>forward</code> , <code>convexity</code> ; T-Lock $\approx$ forward via repo over-hedge
2	Constant Maturity Treasury Convexity Correction	Pucci, M.	2014	ssrn:3387961	<code>cmt</code> , <code>convexity</code> , <code>default-risk</code> ; risky CMT under partial filtration
3	Constant Maturity Asset Swap Convexity Correction	Pucci, M.	2012	ssrn:1961545	<code>cmasw</code> , <code>convexity</code> , <code>asset-swap</code> ; analytical convexity for asset-swap spread
4	Pricing Index-Linked Hybrids under a Local Volatility Market Model	Pucci, M.	2012	ssrn:2056277	<code>hybrid</code> , <code>local-vol</code> , <code>swaption</code> ; cash-settled swaption with equity-index strike
5	Bond Total Return Swaps: Theory, Pricing & Practice	Burgess, N.	—	ssrn:1728976	<code>trs</code> , <code>bond</code> , <code>repo</code> ; practitioner write-up with worked case study
6	Pricing Total Return Swap	Lou, W.	2018	ssrn:3217420	<code>trs</code> , <code>fva</code> , <code>funding</code> , <code>repo</code> ; TRS under collateralisation; recursive tree
7	Bond Implied CDS Spread and CDS-Bond Basis	Zhou, R.	2008	ssrn:1265548	<code>cds</code> , <code>basis</code> , <code>asset-swap</code> ; bond-implied CDS spread via risky annuities
8	On the pricing of Credit-Linked Notes: Swedish market	Axelsson & Renström	2013	SSE thesis	<code>cln</code> , <code>structured-products</code> , <code>empirical</code> ; CLN overpricing 0.6%–6.4% in Sweden
9	Treasury Lock Model	Anonymous	—	finpricing.com	<code>tlock</code> , <code>repo</code> , <code>pv01</code> , <code>model-doc</code> ; T-Lock model doc (clean/yield/dirty lock)
10	Why We Don't Discount at the "Risk-Free Rate"	Anonymous	—	—	<code>discounting</code> , <code>repo</code> , <code>csa</code> , <code>ois</code> , <code>xva</code> ; drift = repo, discount = collateral
11	CDS Market Formulas and Models	Brigo & Morini	2005	no SSRN ID	<code>cds</code> , <code>cds-option</code> , <code>market-model</code> , <code>cmcds</code> ; Black formula for CDS options via defaultable-PV01 numeraire
12	Everything You Always Wanted to Know About Multiple Interest Rate Curve Bootstrapping But Were Afraid To Ask	Ametrano & Bianchetti	2013	ssrn:2219548	<code>multicurve</code> , <code>ois-discounting</code> , <code>bootstrap</code> , <code>basis-swap</code> ; one OIS discount curve + tenor-specific FRA curves, EUR worked example, QuantLib
<i>Personal work — integrated studies derived from the papers above:</i>					
P1	The Treasury Lock — a comprehensive study	Personal	2026	—	<code>tlock</code> , <code>repo</code> , <code>forward</code> , <code>convexity</code> , <code>personal-work</code> ; Pucci + anon practitioner, Part I/II + appendices
